MARIJUANA PREGNANT

I Smoked Marijuana While Pregnant and Breastfeeding

My pregnancy journey with the help of Marijuana

GREAY ZONEs

- Cannabis shops
- CBD products
- Hemp issues
- Medical cannabis

The report highlights the need for:

- Clearer distinction

Cannabinoid-based medicines and medical cannabis.

- Clearer frameworks

Absence of a coherent EU-level ☐ fragmented framework

- Patient- and evidence-based regulations

So that commercial interests do not drive regulatory changes.

- Similar requirements for evidence, indication, regulatory approval and follow-up as for other medicines.

- A prioritisation of legislation proposals in cases where the current regulatory framework is clearly being circumvented.
